

1984(20)

Da Epicest Book Report In Existence of George Orwell's Classic Dystopian Social Science Fiction Novel and Cautionary Tale, *Nineteen Eighty-Four*, Often Published as *1984*, Which Received Widespread Acclaim and Had a Movie Made of It and Stuff

by eglets1!!!!!!!!!!!!!!

AUTHROS AN: I didnt read da who;le book cuz i was too busy doing other stuff like... important stuff... but i read the sparknotes and watched a clip of da movie. also i know that it is about society and socialistism and totalitariorgasm and it is vary deep.

In 1984 which was like forever ago, a guy named winston smith (who is the mc of 1984) had many bad problems in his life. For example his house was really gross because they were living in a dystopia which is basically an postpocalypse society and stuff.

Winsotn smith was like some old guy who had old guy problems, like balding and back pains and ererctile dysfunction which is where his *dick* and **BALLS** do not get hard during fucks. (AUTHORS AN: That is very bad becuz guys care a whole lot, like A LOT a lot abuot their *penelis* and *ballz* for sum reason and having hard **PENAISESIS** is very very very very very VERY VERY VERY important to them. I know this becuz i read on wikipedia some guy named sigman fred had a theory about sumthing called castraation angziety which is basicly afraidness of getting their *peckers* chopped off.) winston's ED is a themetically important simbol becuz winstons *manhood* is dysfunctional like the dystopian societie of 1984 is dysfunctional.

winston also had many other problems with his **cockballs** but he was embarrassed to tell any 1 about them becuz he wuz a guy and guys are not supposed to have problem with there **weiner** and **nutsack** during secs. Winston knew that if he told anyone about his problems with his **schlong**, they wood laugh at him and call him a prevert. I know this becuz I read in Sonic High School, when sonic writes down his ball problems in his journal Ms. Lesson reads them to everyone and everyone laughs at him. (Guys have very fragile egos and insulting they're masculinity makes them suprer pissed. i also know this becuae i am not stupid. all yooou have to do is look at some of the guys in my class to see how gigantic their egos are).

Also in 1984 it was a dystopian society so peopul did not care about winstons presonal problems theyy only cared about controlling peoples by having absolutecontrol (SHIPPING LMAO!!!!!!!!!!!!!!!!!!!!!!). One of the ways the party does this is by banning segs and stuff. Like they said they wanted to make it so dat doing fuck ing would not feel like anyting annymore so that peopul would'nt be disobedient to the Party becuz of **HORNINESS**. And I think that s both dumb and pointless becuz its kinda impossible in my opine yin. People will always be horny. It is merely a fact of life, and trying to stop it is as fruitless as trying to prevent the sun from rising.

n e ways, l8er on in da story Winstom meets this girl named julia and he falls in love with her. They do seggs stuff like **handjobs** and **bluejobs** and **nutjobs** which i dont know specificy wut that is but it sounds like a sechs things. winstun has anxiety abuot his hot rod not working right and thinkgs about this properstute he once secksed. Da prostitute

was really old and crusty but winstin still made out with her cuz he was hrorny and dodnt care anymore.

It turns out ok in the end cuz the power of love or some bs magically makes Wrinston's **carrot stick** hard and crunchy again. But not litrally, it is metaphorically speacking cuz if you bite off a guys cuCUMber, instead of a fresh tasty veggie flavor you get a twenty year sentence in jail.

Butts sadly in da end, even though Winston's divining rod was fixed, he was still super mega fucksed becuz the Party police found them and tortured them and then they became normies.

THE ENDENING!
